47 RETEACHING WORKSHEET

Review Author's perspective is the combination of ideas, values, feelings, and beliefs that influence the way a writer looks at a topic. One clue to an author's perspective is the **tone**, or attitude, conveyed in a work. The tone can be determined by noticing the kind of words the author uses to describe the subject.

Directions: First, **read** the boxed passage. Then, **place a check mark** in the blank next to the *best*answer for each question.

Many people are surprised to learn how effectively skunks reduce pest populations. A skunk's diet consists mostly of insects such as larval grubs, which can severely damage lawns. Besides naturally means of controlling soil insects, they consume other potential nuisances, including baby rats. Skunks are primarily nocturnal, and so eat mostly at night.

- 1. Which word *best* describes the tone of this passage?
 - a. angry b. admiring c. critical
